

The On-line Open-File Reports are FREE to download via this internet and distributed in the Adobe PDF format.

Open-file reports are compiled by the Mississippi Department of Environmental Quality (MDEQ), Mississippi Office of Geology staff.

The Open-File Reports are public information; however, each user is responsible for the appropriate application of the data.

The maps are not meant for site-specific analysis. MDEQ does not warrant the accuracy or completeness of the source data. Geologic maps are only a guide to current understanding and do not eliminate the need for detailed investigations of specific sites for specific purposes.
