

**STATE OF MISSISSIPPI**  
**ANNUAL SUMMARY REPORT FOR**  
**CLASS I & CLASS II RUBBISH SITES**

**CALENDAR YEAR 2000**

**PREPARED BY:**

**SOLID WASTE MANAGEMENT BRANCH**  
**OFFICE OF POLLUTION CONTROL**  
**MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY**

## **Introduction**

A significant amount of solid wastes are managed and disposed of each year at rubbish disposal facilities across Mississippi. These disposal facilities are divided into two categories, Class I and Class II rubbish sites. Class I rubbish sites may accept all solid wastes that are defined as rubbish wastes. These wastes include the following:

- ◆ construction and demolition debris;
- ◆ brick, mortar, concrete, stone, and asphalt;
- ◆ cardboard;
- ◆ natural vegetation;
- ◆ appliances which have had the motor removed (except refrigerators);
- ◆ furniture;
- ◆ plastic, glass, crockery, and metal (except containers);
- ◆ sawdust, wood shavings, and wood chips

Class II rubbish sites may accept limited types of rubbish wastes which are more inert. These wastes include natural vegetation, brick, mortar, concrete, stone, and asphalt.

An annual report on the solid waste disposal activity conducted at a rubbish disposal facility is due each year by February 28<sup>th</sup> from the facility owner. This annual report is required by Section T of Statewide General Permit No. SWGP-R1 for Class I rubbish disposal facilities, Section R of Statewide General Permit No. SWGP-R2 for Class II rubbish disposal facilities, and the Mississippi Code Annotated, Section 17-17-219 (Supp. 2000).

Attached is a summary report of the information contained in the individual facility reports for Calendar Year 2000 for Class I and Class II rubbish disposal facilities in the State of Mississippi. The information is listed by County, alphabetically. Pages 5-7 contains the summary information for Class I rubbish disposal facilities and pages 8-10 contains summary information for Class II rubbish disposal facilities.

The summary report contains the following information:

- In Column I: County –indicates the name of the county in which the reporting facility is located;
- In Column II: Location –indicates the Section/Township/Range in which the facility is located;
- In Column III: Name of the reporting facility –indicates the name of the facility as indicated on the Facility’s operating permit or certificate of coverage;
- In Column IV: Owner –indicates the name of the facility owner and the person or entity which holds the permit to operate;
- In Column V: Acreage permitted –indicates the actual total permitted disposal area;
- In Column VI: Waste received –includes the total amount of wastes received at the facility during Calendar Year 2000 in tons/year and tons/day as reported by the facility owner;
- In Column VII: Out of State wastes received –indicates the amount of waste received at the facility from out of state and the percentage of out of state wastes received at the reporting facility; and
- In Column VIII: Estimated remaining life of the facility in remaining years and/or remaining acreage –indicates the predicted remaining time of operation or the predicted remaining capacity at the facility as reported by the facility owner.
