MEMORANDUM

TO: Kuhlman Electric Site File
Crystal Springs, MS

FROM: Tony Russell *TR*

DATE: August 8, 2005

SUBJECT: Conversation with Chantel Nelson – August 8, 2005

I spoke with Ms. Chantel Nelson (817-801-1138) today regarding the PCB contamination in Crystal Springs, MS. She was concerned about her health and wanted to get tested. I informed her that DEQ does not do health tests or screenings and she would need to talk to the health department. She had spoken with the health department and they told her to call DEQ. I then instructed her to call her doctor concerning the type of test(s) he would recommend.

I also informed her that her previous address in Crystal Springs at 222 Camp Street (old 308 Camp Street) was outside the area of known contamination. The major exposure route would be via ingestion of contaminated soils. She felt a lot better about the situation after being informed of this information.
