MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY

**MINING NOTICE OF INTENT (MNOI)  
FOR COVERAGE UNDER MINING STORM WATER  
GENERAL NPDES PERMIT MSR32 1526  
(Number to be assigned by State)**

File at least 30 days prior to the commencement of mining; 15 days if a Storm Water Pollution Prevention Plan (SWPPP) is already on file. Lateral expansion of an existing mine that has storm water permit coverage does not require submittal of a new MNOI however, modification of the existing SWPPP to include the expansion is required. Also, according to 40 CFR 122.26 (b) (14) (iii), mining operations that do not discharge storm water contaminated by contact with any overburden, raw material, intermediate products, finished products, byproducts or waste products shall not be required to file a MNOI.

IS APPLICANT THE OPERATOR OR OWNER? (Circle one or both)

Attention: Mr. Michael Roussel

Reference: **Surface Mining Permit  
Notice of Exempt Operation  
Big Creek Road Sand Mine  
Section 8, Township 7 South,  
Range 12 West  
Harrison County, Mississippi**

Dear Mr. Roussel,

Attached for your review and approval is our Mining Notice of Intent for the above captioned mining application, four acres.

The surface mine shall be stripped of overburden and the topsoil segregated for use in plating the slopes of the pit for vegetation. The balance of the spoil material shall be used to construct earthen berms around the perimeter of the pit. The berms will be constructed so as to preclude storm water from entering the pit.

Construction and excavation of the pit will be in such a configuration with grade changes that only the incidental storm water and ground water will flow to a temporary sump at the lowest elevation in the pit. No storm water or ground water shall leave the surface mining pit. All storm water shall be contained within the pit.

If you have any questions at all, please do not hesitate to call our office.

Sincerely,

Michael Rouse

PO Box 3058  
Gulfport, Mississippi 39505

Dear Mr. Fore

Re: W C Fore Trucking Inc, Big Creek Road  
Sand Pit  
Harrison County  
General Mining Stormwater Coverage. No.  
MSR321526

The information you have provided for the referenced facility indicates that there will be no storm water runoff to state waters. Only facilities with storm water discharges are required to have an NPDES permit. Therefore, storm water permitting is not needed for the above referenced facility as long as there is no discharge. If conditions change at this facility, permitting will be required.

We appreciate your attention to the storm water regulations. Please contact me at 601-961-5722 if you have any questions or if I may be of further assistance on this or any matter.

Sincerely,

A handwritten signature in black ink that reads "Charity Rockingham".
