RE: COMMUNITY ENGAGMENT PROGRESS REPORT NOVEMBER 2024 THROUGH JANUARY 2025, KUHLMAN ELECTRIC CORPORATION CLEAN UP ACTIONS, CRYSTAL SPRINGS, MISSISSIPPI

Dear Ms. Johnson:

This report provides a summary of community engagement actions for the Kuhlman Electric Corporation (KEC) environmental clean-up in Crystal Springs, Mississippi, as required by the Community Engagement Plan approved by the Mississippi Department of Environmental Quality (MDEQ) on July 17, 2012. This report will cover the period from November 2024 through and including January 2025. Future reports will continue to be provided quarterly.

KEC has continued to be actively engaged with the community. During this quarter, KEC with its consultants Environmental Management Services (EMS) and Caffee, Caffee and Associates (CCA) has met with MDEQ and updated and notified Crystal Springs residents of remedial activities through one-on-one dialogue and quarterly newsletters.

The following Corrective Action Plan milestone activities were initiated or continued during this reporting period:

- Soil Vapor Extraction System operation, maintenance and monitoring (ongoing)
- Soil Vapor Extraction System optimization (additional wells and monitoring points)
- Capacity Plan Implementation
 - Operation of new City wells CSW-WA9, CSW-WA10, and CSW-WA11 continued
 - o City wells CSW-WA1 and CSW-WA2 remain out of service
 - o Operation of new City of Crystal Springs municipal water supply pipeline
 - o Rehabilitation of City of Crystal Springs supply well CSW-WA6 (ongoing)
 - o Evaluation of potential additional supply well needs and locations (ongoing)

Progress in implementing the Community Engagement Plan as it relates to these specific milestones, above, is detailed in Table 1 (attached). There were no required activities that were not completed.

Cassandra Johnson January 31, 2025 Page 2

Community relations are conducted on an as-needed basis, designed to meet the requests and needs of the public. The current status is as follows:

Points of Contact

The new local Health Safety Environment Manager for the Hitachi Energy facility in Crystal Springs, MS is in transition at this time. I will serve as the interim contact. I can be reached by calling 573-508-8195 or via email at antonio.pimentel@hitachienergy.com.

Community relations contractor is Brenda Caffee of CCA (continued).

Fact Sheets

Fact sheets are available on an ongoing basis, as requested from the public. Fact sheets available are:

- Soil Vapor Extraction
- Air Sparging
- Monitored Natural Attenuation
- Groundwater Corrective Action Plan

Media Releases and Briefings

There were no media releases or briefings.

Public Notices

There were no Public Notices required or completed.

Information Repository

Final reports are submitted to MDEQ for storage in the information repository, maintained by MDEQ online. Final reports are also maintained at the Crystal Springs Public Library Information Desk, 200 South Jackson Street, Crystal Springs, MS. Newsletters will be provided for public access through the Crystal Springs City Hall, as well.

Submittal of the Semi-Annual Groundwater Monitoring Report, September 2024 was made to MDEQ in November 2024 and will made available in the Crystal Springs Public Library.

Local Briefings and Telephone Briefings

CCA, on behalf of KEC, continues to hold individual meetings as requested, as well as telephone conversations each quarter. CCA has maintained communication and a presence in the community each month to reassure residents of KEC's community engagement efforts.

Representatives also routinely hold one-on-one talks with businesses and churches in Crystal Springs while hand delivering copies of the KEC newsletter (see Direct Mail below) during normal quarters.

Cassandra Johnson January 31, 2025 Page 3

Public Meeting, Open Houses and Small Group Meetings

CCA has continually offered updates during the reporting period, as requested, not including those who received newsletters (see Direct Mail below).

Direct Mail

KEC continues to distribute copies of the quarterly newsletter, the Kuhlman Cleanup News. The most recent version was issued in January 2025. Over 1500 newsletters will be made available at City Hall and any open businesses. Businesses and churches receive copies of the newsletter to ensure a broad distribution and that interested individuals have multiple locations to obtain a copy. The January issue of the newsletter provides updates on the soil vapor extraction system, public water supply and water quality monitoring. A copy is attached.

Comment Period and Comment Responses

MDEQ has not notified KEC of any other public notice/comment periods required at this time.

Upcoming Activities

KEC will provide the next quarterly update in April 2025. Please do not hesitate to contact me with any questions you might have at 573-508-8195.

Sincerely,

Antonio Pimentel

KUHLMAN CLEANUP NEWS

JANUARY 2025

Newsletter on Kuhlman Environmental Cleanup in Crystal Springs

CURRENT PROGRESS AND UPCOMING PROJECTS

Soil Vapor Extraction Progress

The Semi-annual Soil Vapor Extraction (SVE) performance monitoring and maintenance was completed in December 2024. This work is conducted to ensure continued effectiveness in the vapor recovery and treatment process. The SVE system continues to operate during this work and appears to be operating as designed.

OR COMMENTS?

If you have any questions
or concerns, we want to
hear them! Please submit
all questions or comments
to Brenda Bell Caffee of
Caffee, Caffee and
Associates
at 601-336-7212.

City Water Supply & Well

The existing city supply well CSW-WA6, located just north of Six-Mile Road, has undergone significant improvements, including the installation of a new pump to ensure a consistent supply of potable water for the city. Following the installation, the well was tested and is now capable of yielding approximately 162 gallons per minute. Final surface completion work on the well is scheduled to be finalized in the coming weeks. Once completed, CSW-WA6 will be integrated into the City's network of supply wells, enhancing the overall water supply system.

GROUNDWATER SEMI-ANNUAL MONITORING

The preparation of the 2024 second semi-annual monitoring report is currently underway. This report will be based on the analytical results obtained from the November sampling of all monitoring wells. The

completed report will be submitted to the Mississippi Department of Environmental Quality (MDEQ) for review.

WELL SAMPLING

The next scheduled sampling event for the monitoring wells is set for March. This will ensure continued compliance and monitoring of the water quality and system performance.

FACT SHEETS AVAILABLE

We understand that the terms sometimes used in the newsletters and reports can be a little confusing. For this reason, fact sheets are always available, upon request, to describe the processes and procedures being used. Any of these fact sheets can be requested by contacting Caffee, Caffee and Associates.

UPCOMING EVENTS

- Continued operation of the full-scale Soil Vapor Extraction system
- Continued monitoring of groundwater monitoring and city supply wells

PUBLIC DOCUMENTS REPOSITORY

Select documents have been made available at your local Crystal Springs Library for review or you can visit http://www.mdeq.state.ms.us/
